Brand New Homes Now Available!

Quality, Single Family Homes in St. Johns County,

A Bike Ride from Downtown St. Augustine Starting in the Mid \$200,000s

Habitat for Humanity of St. Johns County is building homes for the workforce.

Our two-bedroom one-bath and three-bedroom two-bath homes are located on McDonald Avenue in our Volusia Woods neighborhood, located just minutes from downtown St. Augustine. All homes are owner-occupied. Down payment assistance is available to qualified buyers.

These beautiful homes have an open floorplan, with an abundance of windows so you can enjoy natural light and fresh air on a nice day. They feature a metal roof, granite countertops, upgraded vinyl flooring, window treatments, and a storage shed. All homes come with new Whirlpool appliances, including the refrigerator, range, dishwasher, and microwave, as well as a washer and dryer in a separate laundry room.

These homes cover 900 - 1,100 square feet and boast a stylish, modern eat-in kitchen with stainless steel appliances. Every home comes with an attached 32 sq ft shed at the back of the home, and a covered 80 sq ft front porch.

To learn more about qualifying for a Habitat St. Johns home and/or to arrange a tour, please call or email Candice Marhanka, Homeowner Services Manager. Candice can be reached at charmanka@habitatstjohns.org or by calling 904-826-3252.
